

# Pre-Congress Workshop

## JBJS MILLER REVIEW SHORT COURSE

### 28 JULY 2021

Building on 25 years of training thousands of Orthopaedic surgeons in North America, The Journal of Bone and Joint Surgery is honored to bring the Miller Review Course to you at the 21<sup>st</sup> Asia Pacific Orthopaedic Association Congress 2021. This one-day intensive course is being offered as a pre-conference event. You will learn core knowledge from experts in the field on trauma, pediatrics, spine, hand/wrist/elbow, adult hip and knee reconstruction. In addition, you'll learn methods for knowledge synthesis and test preparation.

In addition to the face to face lectures, every attendee will get one year of access to the 15-video module online "JBJS Virtual Review Course" (valued at 999 USD) to help you study once you return to your institution. The course covers all subspecialties and contains 200 questions to help you assess your understanding.

As a bonus, Dr. Marc Swiontkowski, JBJS Editor-In-Chief will present valuable insights to getting your articles published in *JBJS* and other Orthopaedic journals. Whether you're a trainee or a practicing Orthopaedic surgeon, this is a day you do not want to miss.

#### FACULTY
